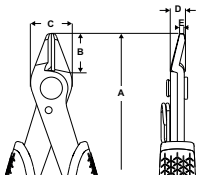
LINDSTRÖM®

The best shear cutters you will ever own

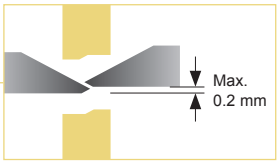
6152 SS Tapered Shear Cutters | INOX Shear

The **EDGE Tapered Shear Cutters 6152 SS are the ideal cutting tool for working in cleanrooms**. The 6152 SS shear cutters are corrosion and wear resistant, making them perfect choice for applications that require sterilised instruments.

- **Perfect for** cleanrooms, pharmaceutical industries, medical device manufacturing and the fish industry.
- **By-pass cutting action** mitigates the impact on workpieces, from metals such as stainless steel to fish bones such as salmon.
- **Flush EDGE:** Best for applications in which precision cuts are of paramount importance thanks to the controlled blade misalignment of less than 0.2 mm.



Part No.		A mm / in	B mm / in	C mm / in	D mm / in	E mm / in	g
6152 SS	Flush Edge	134 / 5.28	14 / 0.55	15 / 0.59	5.0 / 0.20	1.0 / 0.04	54.4



Flush EDGE cut: Expert shear cutting technology and a controlled edge misalignment of less than 0.2 mm to deliver a clean, smooth cut, on even the thinnest wires.

Stainless steel body for excellent durability and long-lasting, corrosion-resistant performance.

Return spring and opening limiter for smooth operation that help minimise hand fatigue.

Suitable for cutting:
- Copper wire
- Standard steel
- Plastics
- Glass fibre cables
- Cutting insulation
- Cables
- Ties
- Corded material of all types
- Fish bones

Bi-material and ESD-safe dissipative handles that eliminate electrostatic build-up and permit a slow charge equalization.
